In accordance with Title 27, California Code of Regulations (27CCR) §21660.3, please be advised that the County of San Diego Department of Environmental Health Solid Waste Local Enforcement Agency (LEA) received and has accepted an application for a medium volume Construction and Demolition/Inert Debris Processing Facility for EDCO Waste and Recycling. The LEA is certified by the California Department of Resources Recycling and Recovery (CalRecycle) to enforce state laws and regulations at solid waste facilities within the County of San Diego, excluding the City of San Diego.

The proposed project is an existing medium volume construction and demolition/inert debris (CDI) processing facility. As a result of a mandatory permit review, updates are required resulting in issuance of a new registration permit. The updates include correcting the facility address, clarifying operation acreage and hours of operation and including additional required information in the Facility Plan. The physical operation area, tonnage, types of CDI received, and traffic will remain the same.

LEA Determination: The operation is defined and authorized by California Code of Regulations, Title 14, Division 7, Chapter 3, Article 5.9. The issuance of the permit is a ministerial action by the LEA.

Where can a copy of the permit application be reviewed?

A copy of the permit application is available for review by appointment at the Department of Environmental Health office located at 5500 Overland Drive, Suite 110, San Diego 92123.
